AMERICAN & FOREIGN PATENTS

SOLICITOR OF PATENTS. Late Agent of U. S. Patent, Office Washington, (under the Act of 1837.) 76 State Streat, opposite Kilby Street, BOSTON,

A FISH an extensive practice of upwards of Atwenty years, continues to secure Patents in the Plainted States. also, in Grack Reviews, Specifications, Bonds, Assignments, and all papers of Drawings for Patents, executed on liberal terms, and with despatch. Rescarches made into America or Foreign works, to determine the validity or utility of Patents or Invontiors—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patents furnished by rounting One Bollst. Assignments recorded at Washington.

the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Wastington.

The Agency is not only the largest in New England, but through its Inventors have ndvantages for securing Patents, of assertaining the patentability of inventions unsurpassed by, if not immeasurably auporior to any which can be offered them elsewhere. The Tectimonials below given prove that none is MORE STOCKESTIL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would edd that he has abundant reacen to believe, and ear prove, that at no other office of the kind are the charges for professional survices to medicanto. The immence profiles of the subscriber during twenty years past has enabled him to secumulate a vest collection of specifications and efficial decisions relative to petenta.

These, besides his extensive library of logal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents. All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

"I regard Mr. Eddy as one of the most ca-ble and successful practitioners with whom

I have no hositation in assuring inventors that they cannot employ a porson more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and flavorable consideration of the Patent Office. EDMOND BURKE,

for them an early and lavorauce consideration of the Patent Office. EDMOND BUNKE,
Late Commissioner of Patent.
Mr. R.H. Eddy has made for me THIR-TEEN applications, on all bu was of which patents have been granted, and that is new pending. Suon unmissiakable proof of great tainst and ability on his part leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges? What does nationality imply? Some people who live under its protection inhale it as the air, altogether unconscious of that air being necessary to their civilized existance. They are apt to imagine that it is all to the force of their enlightened principles that they owe a happy and peaceful existence. But how did they acquire that force of principle? Evidently from on interest of prisoners. The tables were teaching and daily practice. Where did afterneds reinforced and recaptured 29 hay receive those teachings? That national flag, indeed, protects, un der its warm folds, all the tender blossoms of civilization against the icy breath of anarchy and barbarism. Because the stars and stripes and the flag and the nation are made a theme for bragging orstory, they are on that account not less the true sym bole and guardians of all that we are as men, of all that we have achieved or ever can hope to achieve in the way of civiliza tion. The correspondent of the ITimes at Culpepper states that when Oen. Banks force moved on to Little Warrenton the gurrillas killed and wounded one of our cavalry.—
The soldiers wished to execute the order of Gen. Pope by retaliating on the village, but Gen. Banks arrival prevented it. Gen. Banks sent out a party who captured nine prisoners, only two of whom were retnined, the others being discharged. The Warrenton correspondent of the Herald states that two residences of rebels are strictly guarded by soldiers of Gen McDowells farmy, contrary to the recent order of Gen Pope.
